Project Schedule

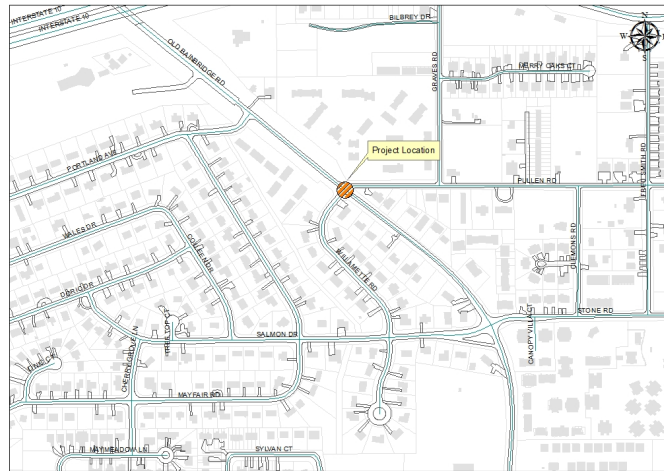

Public Meeting to present the Old Bainbridge Road and Pullen Road Intersection Improvements

When: Thursday December 11, 2014 at 6:00 pm

A short presentation will be held at 6:15 pm

Where: Astoria Park Elementary School – Cafeteria

2465 Atlas Road, Tallahassee, Fl.

Old Bainbridge Road at Pullen Road Intersection Improvement

Project Description

The current configuration of the intersection of Old Bainbridge Road and Pullen/Willamette Road is at an acute angle that impedes visibility and makes a difficult right turn for vehicles traveling north on Old Bainbridge. Westbound left turns are significantly impeded during peak travel times which results in long traffic queues on Pullen Road.

Proposed Improvements

The installation of a signalized intersection would require the relocation of Pullen Road to the south for proper functionality. As a result a roundabout is proposed. A roundabout is proposed to improve all movements through the intersection, to enhance the safety for vehicles and pedestrians by the traffic calming nature, and reduce congestion during peak hours.
